SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

As of 04/02/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information visit: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Travel-Advisory.aspx>

On 04/21/21, the State Operations Center (SOC) changed the reporting tempo for the COVID-19 Sit Stat and Trifold Reports from daily to once a week. Updated reports can be expected every Tuesday of each week until further notice.

SITUATION SUMMARY

Coronavirus Disease 2019 (COVID-19) (Continued)

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 06/08/21 at 1100 hours:

- 174,572,459 (+2,848,284) total confirmed cases
- 3,756,686 (+185,922) total deaths

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 06/08/21 at 1000 hours:

- 33,207,488 (+114,250) total confirmed cases
- 595,301 (+3,762) total deaths

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 06/08/21 at 1100 hours:

- 3,691,660 (+792) total confirmed cases

COVID-19 Vaccines Administered – Per Vaccine Task Force as of 06/08/21 at 2359 hours:

- 38,652,198 (+1,094,691) vaccines administered
- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Salton Buttes Earthquake Swarm, Imperial County

On 06/11/21 at approximately 2127 hours a verified M3.9 (originally reported as a M4.0) earthquake occurred approximately 12km WSW of Niland, California at a depth of 2.8km. This event was followed by a swarm of seismic activity that included a M4.3 (originally reported as a M4.6) that occurred at 2139 hours. The current swarm activity is located in the Brawley Seismic Zone which is located between the Imperial and San Andreas Fault Zones, and at the northern end of the swarm that occurred over the past weekend as shown in the figure below.

- The current seismic activity is located within the Salton Sea.
- According to the California Geological Survey Geologist and the U.S. Geological Survey Duty Seismologist, this swarm is within the normal range for seismic activity in this region and not at a level for heightened concern. This activity is too far away from any major faults to increase concern for it to trigger an event on one of these faults.
- Per the U.S. Geological Survey, California Volcano Observatory Scientist-In-Charge, there is no current evidence of magma moving, but they will continue to monitor this activity.
- There are no reports of damage at the time of this report.
- The Cal OES Seismic Hazards Branch Duty Officer is in communication with CGS and the USGS to gather additional information.

- [Wireless Users Impacted: No](#)
- [Wireline and VoIP Users Impacted: Yes](#)

Service Interruptions

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Record heat and potential for thunderstorms late week for portions of Surprise Valley, Lassen, Eastern Plumas, Eastern Sierra Counties, Greater Lake Tahoe Area, and Mono County. Potential storm impacts include lightning, rapid temperature drops, brief heavy rain and hail, and strong outflow winds. New fire starts are also possible given the dryness for much of our vegetation.
- Dangerous heat is going to develop across the interior valley and foothills later this week, an Excessive Heat Watch has been issued from Thursday to Saturday evening.
- Near record heat is expected in the San Joaquin Valley, Sierra Nevada foothills, Kern County desert, and Coastal Range next week.
- Excessive heat will develop in Indian Wells Valley Tuesday and spread northward into the San Joaquin Valley by Thursday.

SOUTHERN CALIFORNIA

- Chances for critical fire weather conditions will be on the increase through Monday as rising temperatures, dry conditions, and strengthening breezes become established. A Fire Weather Watch is in effect for southern Mono County for Monday.
- Gusty northwest to north winds will bring driving hazards and elevated fire weather conditions through at least early next week, especially over southern Santa Barbara County.
- Gusty winds each afternoon and evening will lead to elevated fire weather conditions for the deserts onto the desert slopes of the mountains.
- Excessively hot conditions are expected next week, especially Tuesday through Friday, over most of southwest California.
- An Excessive Heat Warning begins tomorrow as temperatures become dangerously hot with most places seeing afternoon highs 114-118 degrees. Isolated locations may even hit 120-122 Tuesday-Friday.
- Excessive Heat Warning Monday morning through Friday for portions of Apple and Lucerne Valleys, Coachella Valley and the San Diego County deserts.
 - A long duration heat wave is expected next week.
 - Temperatures will begin to increase this weekend, with well above normal temperatures Monday through Friday, peaking Wednesday and Thursday.
 - Record high temperatures may be broken.

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

06/13/21 - 06/19/21

Sunday - Saturday

- Showers continue through Monday morning across far northwest California, with otherwise dry weather expected statewide through next weekend
- Several additional rounds of elevated fire weather conditions across the Sierra and southern California mountains through next weekend as winds gust 25-40 mph at times and very dry weather continues
 - Localized critical fire weather conditions are possible Monday across Santa Barbara County and southern Mono County where winds may locally gust 50-60 mph
- Significant building heat from south to north through the coming week and into next weekend, with widespread 100+ degree temperatures expected for the Central Valley and much of southern California by mid and late week. Some areas will approach or exceed 110 degrees Thursday through Saturday, even across the Central Valley.
 - High to Very High heat risk impacts will develop for mid and late week
 - This heat wave will be a prolonged heat event, likely to persist through at least next Sunday
 - Extreme heat will significantly increase the potential for heat related illnesses, particularly for those working outdoors, participating in outdoor activities, and those who are heat sensitive

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2021-LAW-64674, 6/12/2021, 2031 hours:** IERCC advising of a SPOT "SOS" activation at GPS coordinates 38.963820 -120.933070 plotting on Drivers Flat Road within Placer County. At 2036 hours, while LDO was confirming information with IERCC, the R/O advised it was an accidental activation with no distress and to cancel any response. **Mission Closed.**
- **2021-LAW-64670, 06/12/21, 1829 hours:** Plumas County Sheriff's Office (PCSO) requesting assistance in searching for a critical missing 4 year old autistic boy last seen two hours earlier near Lower Williams Valley Road, Greenville. LDO talked with PCSO SAR IC, who advised he had approximately 30 ground searchers, CHP helicopter, and Butte County Sheriff's SAR was responding with ground searchers, SAR Area K9 teams, and overhead support. No additional resources are needed at this time. **Update:** At 2008 hours, PCSO advising missing child located alive and well. All SAR Mutual Aid resources were cancelled and released back to home base. **Mission Closed.**
- **2021-LAW-64666, 06/12/21, 1800 hours:** IERCC advising of an InReach "SOS" activation at GPS coordinates 36.733829 -118.375776 plotting on the John Muir Trail (JMT) within Sequoia/King NPS(SEKI). IERCC advising they had received messaging from the R/O that he had broken his foot and unable to carry on. IERCC had relayed the activation to SEKI dispatch. At 1809 hours, LDO confirmed with SEKI dispatch and learned a Ranger IC has been assigned to the SAR mission. **Update: 06/12/21, 1849 hours:** SEKI Ranger IC advising they are communicating with R/O and he will bivouac overnight at his current location with a resident Ranger heading to his location in the morning. **Update: 06/13/21, 0621 hours:** SEKI advising resident Ranger deployed to R/O's location with 3 hour eta. There were no new developments overnight. **Mission Ongoing**
- **2021-LAW-64660, 06/12/21, 1200 hours:** IERCC advising of an inReach "SOS" activation at GPS coordinates 37.712041 -119.133339 plotting along the River Trail just East of Clarice Peak within Madera County. IERCC attempted to text R/O but no response and per R/O's emergency contact he was with a group backpacking from the Mammoth area into Yosemite. At 1220 hours while LDO was preparing to notify Madera County Sheriff's Office(MCSO), IERRC advised the R/O had sent a cancel notice. **Mission Closed.**
- **2021-LAW-64516, 06/09/21, 1503 hours:** CSWC notified LDO of a request for Cadaver K9 for sensitive LE mission in Humboldt County for a location TBD, to occur during the week of June 14th. **Update: 06/11/21, 1119 hours:** HCSO requesting the HRD K9 resources to report for a 0700 briefing on 06/15/21 at their Trinity River Substation. HCSO has secured lodging for the teams. Two HRD K9 teams have accepted the mission. **Mission Ongoing.**

Cal OES MISSION TASKINGS

Cal OES Missions

- **2021-TACCOM-0422:** Kit-1 and HQ-10 of Sonim phones to Chico State and the CPUC for their annual Cellular speed test. Typical usage time is 30-45 days.

Cal OES

GOVERNOR'S OFFICE
